

9-INNING DUEL

Official Rulebook

Version 1.2 — Refined Edition

A realistic two-player baseball simulation. Build a roster under a salary cap, set your lineup, and resolve every plate appearance through a shared 10×10 duel matrix.

1. Game Overview

Players: 2 | **Length:** 9 innings | Each player manages roster, tactics, and pitching.

2. Components

Playing mat · Position icons (C, 1B, 2B, 3B, SS, OF, DH) · **D1** red d20 · **D2** blue d10 · Player cards · Tactic cards (9 each)

3. Player Cards

Identity (name, year, team, positions, L/R), salary, abilities, and a **10×10 grind matrix**.

• **IP** (pitchers) · **DEF** (catchers/fielders) · **SPD** (runners). Up to three batter positions; pitchers are **P**.

4. Team Building

Roster 12–25 under **\$1,000** cap (min \$1/card). Lineup: **C · 1B · 2B · 3B · SS · OF · OF · OF · DH**. Combined pitcher IP must exceed 9.

5. Pitcher Exhaustion

IP = max innings. Mid-inning entry costs 1 full IP. Forced out at limit. No eligible reliever → **forfeit**.

6–7. Play & Duel

Nine innings (extras if tied). Each PA: (1) 0–1 tactic each (2) roll D1/D2 (3) apply D2 mods, clamp 1–10 (4) read matrix (5) DEF then OFF transformations (6) execute outcome.

8. Grind Matrix Indexing

D1 1–10 → pitcher card row D1. D1 11–20 → batter card row D1–10. Column = final D2.

8.1 Layout gradient. Upper-left favors the pitcher (SO/FO/GO). Lower-right favors the batter (BB/1B/2B/HR). Counts match card rates; placement follows the gradient.

D2 modifiers matter: **higher D2** → batter side; **lower D2** → pitcher side. Defense +D2 cards trade matrix position for special effects; Sac Fly's D2–1 pushes toward outs.

Code	Color
SO	White
FO	Grey
GO	Light blue
BB	Green

Code	Color
1B	Light yellow
2B	Orange
HR	Red

9. Outcomes

Code	Effect
SO	Batter out
FO	Batter out; runners hold (unless tactic)
GO	Batter out; runners +1 (no score on 3rd out)
BB	Batter to 1st; forced +1
1B	Batter to 1st; runners +1
2B	Batter to 2nd; runners +2
HR	All score

10. Tactic Cards

Card	Side	Effect
Fake Move	Both	Bluff only
Pickoff	DEF	If Steal played: runner out, restart AB
Infield Forward	DEF	D2+2; cancels Bunt
Intentional Walk	DEF	Immediate BB
Double Play	DEF	D2+1; on GO with runner on 1st → DP
Steal	OFF	Check=D1+CDEF-D2-SPD. 2B ≤9, 3B ≤6. Then restart AB
Bunt	OFF	B=D1-D2-SPD → table
Hit & Run	OFF	Extra base on 1B/2B; SO → Steal
Sacrifice Fly	OFF	D2-1; FO advances runners

Bunt table: B≤-5 → 1B; B≤4 → GO; else FO.

11–12. Subs & Winning

Pitching changes anytime. No re-entry for batters unless house-ruled. Walk-off in bottom 9+; skip bottom 9 if home already leads; extras if tied.

Appendix A — Calibration (v1.2)

Steal 2B ≤9 (~82% SPD6 vs CDEF4). **Steal 3B** ≤6 (~68% same matchup). Bunt bands unchanged from v1.1.
